## PROFESSIONAL SUMMARY

Data Engineer & Data Analyst with near 2 years of experience in ETL/ELT development, data modelling, analytics, and BI reporting. Skilled in SQL, Snowflake, Azure fundamentals. Experienced in designing scalable data pipelines, implementing data transformations, and supporting reporting teams with KPIs, dashboards, and analytical insights. Strong understanding of medallion architecture, data warehousing, and real-time/batch processing. Adept at translating business requirements into efficient data solutions.

## TECHNICAL SKILLS

*Data Engineering & ETL:* Talend DI, Talend Runtime, Qlik Sense, QlikView, ETL/ELT Pipelines, Data Governance

*Databases & SQL:* SQL Server, Oracle, Postgres, Snowflake

*Cloud Platforms:* Microsoft Azure (Certified), Snowflake (Certified)

*Tools & Technologies:* Excel, Python (Pandas, NumPy)

*Domain Knowledge:* Banking Systems, Financial Data, SAP Fundamentals

*Soft Skills:* Stakeholder communication, requirements analysis, storytelling, teamwork, analytical thinking

## PROFESSIONAL EXPERIENCE

### *Data Analyst*

#### **YES Bank**

October 2025 – Present

- Collaborate with business teams to gather requirements and deliver financial & operational reports.
- Develop dashboards and data models in QlikView/Qlik Sense enabling real-time reporting.
- Work with large datasets and warehouse structures to optimise data retrieval and processing.
- Support SQL-driven reporting, KPI development, and analytical insights for senior stakeholders.

### *ETL Developer*

#### **Piramal Pharma**

August 2024 – December 2024

- Performed data migration from SAP systems into Snowflake following ETL best practices.
- Designed ETL workflows based on business requirements for analytics & reporting.
- Created data mappings, transformations, validation logic, and structured data models.

### **Predoole Analytics**

January 2025 – October 2025

- Contributed to development of Power BI to Qlik Sense script migrator tool.
- Supported creation of Qlik Sense telemetry performance monitoring framework improving system efficiency.
- Involved in performance optimisation and model evaluation for reporting workflows.

## EDUCATION

Master of Computer Application (MCA), 2022–2024

### **Predoole Analytics**

February 2024 – August 2024

- Led backend development for Consent Management Portal using Talend Studio, Admin, and Runtime.
- Built enterprise-grade ETL pipelines for GDPR / DPDP compliance reporting.
- Integrated relational DBs, Data Lakes, and cloud sources into unified repositories.
- Implemented storage optimisation, quality checks, and reusable data procedures.

## CERTIFICATIONS

- Microsoft Azure Data Fundamentals
- Snowflake Platform Training
